Cuba:

a certain romance

Join us for an educational seven-night experience in this open-air classroom. Our Cuba Cruise, departing from Montego Bay, Jamaica, gives you the chance to explore Cuba. As a former Spanish colony liberally painted with French, African, American, Jamaican, Irish and indigenous Taíno influences, the breadth of Cuba's heritage is staggering. Important historical heirlooms – forts, palaces, hotels and colonial towns – dominate the Cuban landscape, and many of them are being faithfully restored. Rhythms and melodies are ubiquitous in this melting pot of African, European and Caribbean cultures. It's like no other place on earth.

What makes Cuba so unique is its warm, vibrant people, simultaneously welcoming, engaging and sincere, as complex and distinctive as the dense percussion and exultant vocals in their music. Cuba is home to survivors and improvisers, poets and dreamers, musicians and dancers ... the people of Cuba have kept the country and its effervescent, seductive culture alive for centuries. *Cuba Cruise by Celestyal Cruises* provides the incomparable opportunity to meet with the Cuban people, witness their day-to-day lives, share stories and engage in conversations. Cuba remains an unparalleled paradise, a captivating anachronism, in a world that seems to become ever-more globalized. We invite you to share it with the people of Cuba and to learn everything you can about this unique island nation.

An All-Inclusive Experience Awaits.
